# ABACUS PRIVATE CLOUD

Abacus Private Cloud™ Advantage

How does APC benefit me?

Unlike Public Clouds or SaaS platforms, the Abacus Private Cloud is built exclusively to run your business' technology in a fully integrated, secured, and managed environment.

Abacus Private Cloud takes your local IT infrastructure, desktop software applications, SaaS applications and data into a fully integrated virtual workplace, accessible remotely from any device, anywhere, anytime. All of this is supported 24x7 in state-of-the-art data centers located exclusively in the United States.

✔ **Fully Integrated Desktop-as-a-Service (DaaS) which includes:**

- Dedicated Infrastructure with role based design to support database management
- Document management
- Email (Microsoft 365)
- Authentication (whether two factor and/or active directory or group policy, <u>AND</u> all other third party applications compatible with Windows 2012r2)

✔ **IT-as-a-service (ITaaS)**

- Fully Maintained
- Supported & Proactively Managed Network
- Desktop as a Service (DaaS)
- Security and Backups

✔ **100% US Based Staff**
✔ **24X7 Support**
✔ **Multi-Industry Compliant**
✔ **Managed security and backups**

- Zero Capital Investment
- Complete Ownership of Data
- Full-Spectrum Security and Compliance

- Inherent Disaster Recovery
- 99.999% Uptime Guarantee
- Full IT Management and Maintenance

- Application Agnostic
- Flexible Scalable Environment
- Use on Any Device, Any Time, Anywhere
