Complete Ownership of Data

Abacus Private Cloud puts your local IT infastructure, client data and business applications into a custom built and fully configurable private cloud. Your enviornment is accessible from any device, anywhere, anytime, removing the burdens and costs of IT management while maximizing your organization's performance.

Regulatory concerns? The Abacus Private Cloud service is a compliance-ready technology solution, helping organizations meet ePHI, PIPEDA, GDPR, HIPAA and other compliance standards.

Available in the US, CA and UK.
